

ﷲ Did Not Magically Create Mankind Sparkly to Appear

Joseph Learns That Mary Is Pregnant

ﷲ created life on earth, he created a man from dust and a woman out of the man's rib. ﷲ did not just poof out a man to appear, out of the blue like a spark. The same reason why ﷲ would not have a virgin woman magically become pregnant without a man's seed.

It's because of how HE created mankind and blessed them the way HE formed them and how HE wanted them to multiply. ﷲ said unto them, **“be fruitful, and multiply”**. This is a matter of respect for how HE created and blessed them (male & female) and to have them multiply by HIS way. No other way around or a special way. This includes the modern-day scientists and doctors who've biology (playing god) reproduced (cloned) a baby. Whether its animal or human, they surly in vain did not respectful ﷲ. Even if they thought ﷲ allow their preform talent to do that.

In other words, ﷲ would not dare create or take a male's seed magically and spiritually put it into a woman's womb (like the New Testament Mary) to become pregnant. That is a nonsense function way for ﷲ to do that because that is not how HE created mankind in any another way. ﷲ would not have a woman become pregnant as virgin without a male's seed or to form a child to appear human flesh and blood without being in the mother's womb is all forbidden. It's all because of what HE respectably said in the book of Genesis that mankind must be fruitful and to multiply by HIS way.

Most of all, if the New Testament books were true message about Mary, Jospheh, and Jesus, ﷲ would have sent a message to Jospheh to marry Mary as a wife and to be fruitful and multiply instead of having Mary already pregnant long before ﷲ appeared to Joseph in a dream (Matthew 1:20-21).
